

THE MANY FACES OF QUALITY

Take the Survey, help us improve, chance to win

Dear Bill

In order to improve the conference we need your feedback. Please take the short [PNSQC 2013 Survey](#) to help us determine what worked, where we can improve and perhaps win free admission to next year's conference. Thanks in advance!

Look for a newsletter soon alerting you to the posting of the invited speaker videos and slides as well as all paper presenter's slides. Thanks for attending and making PNSQC the place to go for learning, networking and inspiration in software quality.

The mission of PNSQC is to enable knowledge exchange to produce higher quality software.
