Program Details Available

You won't want to miss the [presentations](#) and [workshops](#) provided by our invited speakers. In addition the [technical papers](#) have been announced. This year the papers cover everything from Mobile, Security and People Management to Agile, Automation and Performance Engineering. Papers include:

- *Brewery Management Software in the Cloud*
- *Twelve Tips for Future-proofed Test Automation*
- *The Fab Experience: How to Appreciate Process*
- *This Would be Easy if it Weren't for the People*
- *Applying Game Theory in Software Project Management*

Check out the program, you won't want to miss out, plan on attending to see our bridge to quality.

Blog Action

Be a People Manager, not Project Manager, Anurag Sharma follows in the tracks of Lee Iacocca when he summarized the importance of people in management by saying "it is nothing more than motivating other people."

Join the discussion on the [PNSQC blog](#).

2014 Photo Contest - #pnsqcSNAP

Enter to win and vote for your favorite, the first ever PNSQC [Photo Contest](#) is on. How do you see the bridges to quality around you in everyday life? Show us!

The mission of PNSQC is to enable knowledge exchange to produce higher quality software.
